Experience

MediCloud Global Private Limited

03/2026 – Present

Frontend Developer

- Contributed to a **production-scale healthcare e-commerce platform**, owning frontend development across critical customer journeys including **authentication, product discovery, cart, checkout, wishlist, orders, and SEO**.
- Engineered and maintained **20+ API-driven workflows** by integrating REST APIs across a **microservices architecture**, handling asynchronous data flows, authentication states, API errors, and frontend-backend communication.
- Built **20+ reusable React components** and modular UI patterns, reducing duplicated implementation across modules and establishing a more maintainable and consistent frontend codebase.
- Investigated and resolved **production-level frontend and API issues** in collaboration with backend engineers, debugging request/response failures, authentication problems, and distributed-service integration issues to keep critical workflows functional.
- Improved frontend **performance and responsiveness** across desktop, tablet, and mobile experiences by optimizing rendering, API communication, reusable UI patterns, and resource-heavy interfaces.
- Worked closely with backend engineers and cross-functional teams to **translate business requirements into production-ready features**, troubleshoot blockers, and continuously improve application reliability and user experience.

NTS Nihon Global

06/2025 – 09/2025

Frontend Developer Intern

- Translated **Figma designs into pixel-accurate React.js interfaces** for client-facing NTS Library modules, ensuring consistent and responsive UI implementation.
- Integrated and consumed **50+ backend services**, handling API responses and dynamically rendering server-driven content across frontend modules.
- Participated in **code reviews, defect resolution, sprint planning, and feature development** with senior developers and cross-functional teams to deliver production-ready releases.

Rixi Labs

10/2025 – 12/2025

Web Developer Intern

- Developed a **fitness management application** with React Router, reusable UI components, membership workflows, authentication screens, contact pages, and responsive navigation.
- Implemented **REST API-driven member management** using Axios and Fetch, supporting member registration, data retrieval, editing, deletion, and dynamic form state handling.
- Built interactive **CRUD workflows with controlled forms, loading states, conditional rendering, and client-side validation patterns**, connecting frontend actions with backend services.

Technical Skills

- Languages:** Java, JavaScript, TypeScript, HTML5, CSS3
- Frontend Engineering:** React, Next.js, React Native, 55555 Component Designs, Reusable UI Architecture
- Styling and Animations:** Tailwind CSS, Bootstrap, GSAP, Framer Motion,
- Tools:** Git, GitHub, Docker, Postman, VS Code, JIRA, IntelliJ IDEA
- Concepts:** REST APIs, Responsive Design, SPA Architecture, Component-Based Architecture, UI Optimization

Projects

Stellar Precision | *React.js, Vite, React Router DOM, CSS*

Live Demo | **GitHub**

- Designed and developed a corporate product showcase platform enabling users to explore scientific instruments through structured product catalogs and intuitive navigation.
- Implemented dynamic client-side routing and modular page architecture to improve maintainability and simplify future feature expansion.
- Enhanced user engagement by optimizing content hierarchy, loading performance, and cross-browser compatibility for a seamless browsing experience.

Gym Website (GymTech) | *React.js, Tailwind CSS, Bootstrap*

Live Demo | **GitHub**

- Developed a fitness management platform allowing users to browse membership plans, schedule trainer sessions, and explore fitness programs through an intuitive workflow.
- Integrated dynamic data rendering and interactive forms to streamline user registration and improve overall application usability.
- Structured the frontend using modular components, resulting in cleaner code organization, easier maintenance, and scalable feature development.

Education

Rama University, Kanpur

05/2022 – 05/2026

Bachelor of Technology, Computer Science & Engineering

CGPA - 8.5/10
